TUESDAY, SEPTEMBER 13 1861 THE NEW YORK NEWS AND ITS THREATENE

B LT"-Under this head he C.ucl nati E quirer of Saturday contains the following

The telegraph informs as that the New York News has repudiated the nomination of General McClellan, and favors the reassemblirg of the convention to nominate another candidate. The reason assigned is the otj c tionable character of his letter of acceptance. As an er g nal peace paper, and speaking as by the reopie General McClelian is the regu-larly nom nated Democratic candidate, and no man prolessing Democracy should have any heateney in preterring his election to that of A braham Lucoln, the only other allematice. We take the following pwragraph from tho same number of the Enquirer: WHAT'S THE RATTER NUV?

From the very significant silence of the Engineer relative to General McLellan's letter of acceptance, we were inclined to hellow that it would strongly favor the hoding of another convention for the purpose of miking a Presidential nomination but erasited to the peace Democracy.—Time 8. We copy the above simply to say that the Enquirer is not in favor of holding another convention and making another nomination —that it is in fevor of doing nothing that would afford any aid or comfort to Ahraham Linco'n and his cruelar d blood-thirs'y policy. Such indeed must be the decision of every member of the Euquirer's political school who does not prefer the triumph of the rehellion which, in the estimation of every intelligent anti-abelltionist, the ro else ion of Abraham Lincoln would infallibly bring about. We believe that extremely few men in the North hold this base preference. And we believe that but a fraction even of these few, if any, wil venture to confess the preference by opposing

General McClellan. The enthusiasm of the good and true men of the land for McCielian Issner as to sweep away all disaffection from the ranks of the opposition, and to carry disaff e tion wide spead and nnappensable into the ranks of the abeliaionists. The antl-abeli tionist who should altempt to stem this overpowering current would be not only black hearted but weak-headed. The political fortunes and prospects of

the Republican party are as variable as the policy which President Lincoln has adopted-All over the land the abolition caldron is hubbling, and around it the spirits of all im agineble shades of color are mingling. The schism created by the radicals who nominated From at at Cleveland, and the terrible wedge which wes sent home by the beetles of Senat r Wade and Henry Winter Davls, have scared the slumbers of the Washington magnates. Leading journalists of the abolition class have been detailed for special duty at the national capital. From thence Henry Raymond cracks the whip over the heads of the refractory, through the New York Times: George Dawson-facetions George of old, but now so aboi tionized that

his imaginations are as foul
As vulcan's stith; deserta the post-office ever which ha is sup the conch-shell of the Albany Journal; while Col. John W. Forney, for the first time in the history of our government, makes the honorfor home use, are exposed in the shambles o the Washington Chronicle. "Tnese be the three-headed gentiemen" who form the gnard around the Pintonian portals of Black Repno lication. They growled with astonishing vigor at Fremont's nomination, and when the Wade Davis manifesto made its ap

writers from the party, yelping ont in choras-Since bere you first come.
Yen've set helt in s flame;
So from regions internal,
Turn cut! Turn cut!
From regions infernal, turn out! But all the growling and barking and yelpirg has no effect to check the mighty wave o popular intelligence which is lifting its tall est over a wicked party to sweep it in a deinge of indignation from the face of the earth. The Forney head howls ont its threats that every office holder must work and give moncy to sustain the Administration, and the indignant response comes in the shape of more offic a recignations than have ever before been known pending a Presidential election. Every elected by a large m jority, with all the con device has been resorted to in the hope t, bring back the army of recueauts, but unavailingly. Efforts have been made to buy np and silence the Fremont organs, and the telegraph has been freely used to circulate the fa'so report of the probable withdrawal of Fremont in favor of Lincoln. These things, instead of strongthening Mr. Lincoln, are dislategrating the Republican party, by precluding all possibility of a transfer of the friends of Fremou to Lincoln. Indeed, the only chance tha Lincoln has to escape defeat is t withcraw, and some of his former friends, with a touch of pity for his forlorn pred c ment, are preparing a way for him to back out and call it patriotic self-sacrifice. There will he a meeting of all the disaffected at Cincinnatien the 28th inst., the object of which, M. Wilkes tells ns, will he a friendly and loyal ccreutation, and, if it be deemed necessary or politic, upon due deliberation, that Mr. Liv coln should give place to Gen. Grant or "any other man," the former wid be expected show patriotism sufficient to withdraw. This is a picture of abolition harmony, and thus while that radical party is loslug strength rent by faction, and falling to pieces of its own weight of errors, the Union Democracy is gathering strength daily. All men who love their country in i's entirety-all wh wonld not have its fature flooded with such woesas eprnng in England from th war of the Roses and the contentions of th

people of the land from The hills, the vales, and mountain gorges, Are rallying for our some Georges, The New York Trionne says there : proposition for the orection of a statue to Bayard Taylor in grateful acknowledgemen of the merlt and timeliness of his stirring pcem "On the Chicago Surrender." Let the stone from which it is hewn be black, and, as a fit emblem to serve both as name and motto, let not "The Lyre" be forgotton. Five years from now Bayard Taylor will be willing to give five years of his life to have that poem forgotten by the world. He branded soldiers. herces, scarred defenders of their country in this rebellion, stateamen of distinguished reputation, and eminent publicists and schol are, by such vile epithets as he would nover

THE HOM. JOHN L. DAWSON, OF PENNSYLVA. NIA.-Wo learn from onr Pennsylvania excharges that this sterling patriot and able statesmsr has been renominated as a candidat for Congress in his District. The honer is richly merited. Mr. Dawson is one of the oundest and most enlightened public men in the ration. He is also one of the most faithul. His course as a member of Congress ha been distaguished by love of the Union and the Constitution, by sagacity, and by energy and see duity. How faithfully he has pr formed his immediate duty as a Rapre sentative his constituents best know ont we, as watchful and anxious lavers of he Republic, may be allowed to speak of the idelity with which he has performed his duty to his country. And certainly no one in thl relation has displayed higher or more resolute fidelity. He has reconciled opposition to the errors of the Administration with support of the government in a manner that does signal credit to his patrio'irm and equal credit to hi jud; ment. In short, John L. Diwann is : McClella Democrat of the first water. Stronger , raise could Laid'y be conceived.

By the way, the mention of inCleilan rewe believe, the sentiments of the Western Democracy we say to the N we that this suggestion cannot be entertained for one moment by the teach of the Western Mr. Dewson in a regulation which he offer d in the House of Representatives in May lest, the resolution b ing as follows: When as it was solom ly declared by this

Heree on the 22 day of July, 1861, ap a link in the name of the people of the United S ate and in the face of the world, that the people civil war was waged for no purpose of con-queet or oppression, but solely to restore to Union, with all the rights of the people and of the States unimpaired; and whereas a civ war like the present is the most grievins oull rational calamities, producing, as i. does blood, bed, spolistion, and ansichy, public to bt, official corruption, and general demonstrates ization; and whereas the American Govern-ment cannot rightfully wage war upon any portion of its people except for the so's pur rose of virdicating the constitution and law-ard restoring both to their just supremary. and whereas a restoration of peace is essential to the perpention of a system of repurlicen government, it is now eminerally held ing a Christian and homogeneous poole, i the triumph of our arms and in the exaltation of victory, to tender the olive branch as a sub tion e for the eword; therefore,
Resolved, That the President be required

Mesolved, That the President be required to make known by public proclamation, of otherwise, to all the country, that wheneve any State new in insurrection shall submitherself to the authority of the Federal Government, as defined by the constitution, a hostilities against her shall cause, and, such State shall be protected from all external in transparent with the local laws and institution. reference with her local laws and instit one, and her people shall be garrantied he full edj ymeut of all those rights whi he Federal Goverone et gave them; and, e exercise of a so nd and patriotic des on, he shall proclaim a general amnesty dre d to engige in the work of reb l'io The identity of this resolution with the p seage to which we have referred will strik the reader at once. "Lat me add,' say General McClellan, "what I doubt not was although unexpressed, the sent ment of he Couvention, as it is of the people they repre sent, that when any one State is willing to r thin to the Union, it should be received at one with a full gnarantee of all its constitut un rights" We may justly point to this id not y as an exemplification of the foresight of Mr Dawson, who perceived in advance a meta of restoration which is now recognized as just and apt not merely by the mase-

spirit of the people but by the people them selves. The resolution of Mr. Dawson was o conrse laid on the table by the Republicans is Congress: in return for which misdeed, alon with the other Republican transgressions the Republicans, ss we trust, will be laid on th table in Pennsylvania in October, and in the posed to preside, and sounds the alarm through | Union at large in November. And in that event, the Republican party in our country may be considered as finally disposed of according to strict parliamentary law, for cared Secretaryship of the United States Sess's tainly no motion will over afterwards be made the nest for incubating foul political slanders, to take it up. It will sleep the sleep that seme of which are early by "Occasional" hatch- knows no waking. It will be dead without the hope of resurrection

THE TRUE-HEARTED MOUNTAINBERS .- Kentncky has always been proud of the indomi table energy, the independence, and the pa triotlem of her monntain counties, and some lucidents related in the Maysville Eagle wi'; add to their renown. Last spring, Mr. Johns pearance, they, with trinne voice, expelled it- | the Representative for Boyd and Lawrence in the Legislature, moved to Minnesota. Ored-Burk became a candidato for the vacant sear, but died shortly before the election. The rail cals, about ten days before the election, nom nated Col. David A Mims, of the 39 h Kan ucky, a clever, good man, and personally popular, but whose hatred of the reballion hy led him into the extreme coprae of indorsin. and approving the war policy of the Alminis tration. The true conservative Union mind the district, unwilling to be represented by any radical, brought out John D. Rus. agon the principles of the Louisville Union O.mocratic platform of May, 1853 who was servative county ticket. Col. Mims was at th time in command of the post at Louisa, when portion of his regiment was stationed, bu those who had votes cast them against Mims; which is a circumstance tending to show that the private soldiers cannot be brought to in derse Lincoln by any bland.shments or fea

of cord quences. The abolition late say: "Don't vote for McClelian, ho is no soldier, ho is a coward and a semi-traitor, and could not take Rich mond!" Now let us consult the documents The President wrote to General McClellan July 3, 1862, just after the seven days battle ard when ho was as near Richmond as G n eral Gant ever has been: "I am astisfie that yourself, officers, and men have done the rest you could. All accounts say better fighting never was done. Ten thousand hanks for it. "And again Mr. Lincoln wrotes July 5, 1862: "A thousand thanks for the reef your two despatches of 12 and 1 P. M resterday gavo me. Be assured, the horvism and skill of yoursolf, officers, and men is and forever will be appreciated." We should no wonder if Mr. Lincoln were to give the G r. eral a complimentary vote in part payme of all he owes him.

Some people of the Sares that ca' the maelves loyal have been sacking to f., the gootas of those States in rebel States. The ean't doit. We see it asserted in an abolition paper, the Pittsburg Gezasto, that, in Alabam and Western Georgia, there are 225 agents from the loyal States, and that, so far. they have not enlisted one hundred and fi ty ac tion, and then aid in the restoration of the cepted recruits. At Newhern, North Caroli ns, according to the Times of that city, th number of men mustered is less than an average of one apl ce for the recruiting agents io the district. The Times says that there seem to be more anxiety to put the chief part of the State hounties into the pockets of some of .h agents than to obtain good sound man as so-

NATIONAL BANK NUTES .- The inferral har pice, who, for parposes of epocalation, are at tempting to discredit the Na inual Bank lesue by refusing to receive them, are playing a game of Feont drelism which the people cao ercp at ence. A National Back note is as good for all purposes of tisds as a greenbick They are both is ned by the Univel States R. girter and Treasurer, and the Government v s fully seenred the redemption of the former For every one hundred thou and do'lars of United States bonds paid into the United Sin'es Treasnry, ninety thousand dollars in National Bank no'es are emitted to the corpo ration, and on every one of the bills is engraved. "This note is receivable at par in a" parts of the United States In payment of al texes and all other duos to the United States, except duties on imports, and also for all salailed and other debts and demands by the United States to indlviduals, corporations, and institutions within the United States, except Interest on public debt," hut, though the Gov. ernment so receives it, it is not made a lega. tender. No National Bank has failed, and, i the people will set their faces against the exactions of Shylocks, the bills of all such hanks are every bit as good as greenbacks. Aur man who submits to a shave on th mis a fcol, and any man who attempts to discredit them has a sinister object in trying to deprecisto the paper currency of our country. Do BUNNETS AND HATS, not trade with those who refuse to take them

The Richmond Examiner defines an armistice after a different fashion from our military writers, saying an armistice off-red to the rebels now would involve "nothing less than a withdrawal of the isvading troops from every part of the Confederate States and a snepension of the blockade on the coast,' The Examiner therefore regards an armistica as a statu quo ante bellum; but would it be willing to withdraw from all the Union States forts and arsenals which were stolen at the commercement of the war? Armistic is a truce, a stay of hostilities, during which hoth belligerents abstain from acts of wa and from preparation for the future. We shou'd as soon think of offering unconditional peace to the rebels as an armistice founded on

the Examiner's conception of the term. Secretary Seward in a speech a Auburn, N. Y., a few days since, asserted tha there would be no draft, as the daily accession of recruits wou'd answer all the requirements of the Government. Mr. Seward's prophecie have been so unfortunate, not one of them having been falfilled, that we are inclined to regard his present assnrance that the draft will not be enforced, as simply an electioneering trick.

Milo, the strong man of antiquity, lifted a bull. Forrest, the great cattle-lifter, has lified a thousand bulls.

The 'backbone of the rebellion," from be repeated whalings it has received, musess fl. xible as whalehone by this time. They are forming McCleilan and Penileton c'ubs all over the country. These club vill be knock-down arguments.

Although not dispeced to havor or recommend French Heidelones in general, through distrust of these ingredients and effects, I yet know of as anfleteng reasons why a man may not toolily to the benefits go believee himself to have received from any simple to the heuself selects.

I do this the more readily in regard to Hoofens's German Bitlars, prepared by Dr. C. M. Jackson, of this cilr, because I was prejudiced against shear test analy years, under the impression that they were chiefly an alcoholic mixturs. I am indebted to my friend, Eobort shoosmaker, haq, for the removal of this prejudice by proper tests, and for encourages easie to try them when eafering roun great and long continued debility. The use of three bettles of shace hitters at the beginning of the present year, was testiowed by evidant relief and restoration to a dagree at bodily and mental vigor which I had not belt for six cruths before, and had almost deepsies of regardates. I therefore there's hold and my friend for directing net to have taken.
